# KYLE O'SULLIVAN

kos33@bath.ac.uk linkedin.com/in/kos33 github.com/kylezinho
kyleosullivan.uk +44 7305 403957 London, UK

**Stack:** Swift, SwiftUI, SwiftData | Flutter, Dart | TypeScript, JavaScript, React, Next.js | Salesforce Commerce Cloud, ISML | Supabase, PostgreSQL, Firebase, Mapbox | Git, GitHub Actions, CI/CD, Jira, Figma
**AI-Assisted Dev:** Claude Code for test generation & scaffolding | GitHub Copilot | Gemini API (on-device & cloud)

## EXPERIENCE

**SharkNinja** — Software Engineer
*Salesforce Commerce Cloud, JavaScript, ISML | Hybrid, London* — *Sep 2026 – Present*

- **Maintain and develop** SharkNinja's global D2C e-commerce platforms, serving **9M+ monthly visits**
- **Build customer-facing features** from Figma designs using ISML, HTML, CSS and JavaScript
- **Investigate and resolve bugs** across international online stores within Jira-managed Agile sprints

**We Are Here – Homelessness Support Map** — CTO & Lead Developer
*UK Registered Charity | Flutter, Supabase, Mapbox, PostgreSQL* — *Oct 2025 – Present*

- **Lead a cross-functional tech team of 5** building an offline-first map that connects people experiencing homelessness to shelters, food banks, legal aid, and mental health support across London
- **Architected full-stack system:** Flutter frontend with Mapbox SDK, Supabase backend (PostgreSQL, Row-Level Security, Auth), and smart tile caching enabling complete offline use without mobile data
- **Built real-time stakeholder dashboard** used by grassroots organisations to manage and update 256+ charity listings; designed data schema and API layer from scratch
- **Managed pilot testing with 50+ users;** own UX/UI design, data architecture, and privacy-by-design compliance – enforcing a zero-data-export policy so no user data leaves the device
- **Secured funding** backed by Tom Holland; established partnerships with 6 London boroughs; published to iOS and Android

**Frift – Student Marketplace** — Founder & Lead Developer
*Live on App Store | Flutter, Firebase, Cloud Functions* — *May 2024 – Present*

- **Designed and shipped end-to-end:** campus marketplace promoting sustainability with 500+ listings, real-time messaging, and push notifications; designed Firestore NoSQL schema and serverless Cloud Functions
- **Won Santander X competition;** selected as case study for University of Bath Management module

## PROJECTS

**OnlyBills – AI Receipt Scanner** — Sole Developer
*Live on App Store | Swift, SwiftUI, SwiftData, Vision* — *Nov 2025*

- **Owned full product lifecycle:** UX research, Figma design, implementation, App Store review – concept to live product
- **Integrated on-device AI:** Apple Vision for receipt detection, Google Gemini for intelligent item extraction
- **Wrote 100+ unit tests** using Claude Code for scaffolding; async/await with MainActor for thread-safe UI

**KyleOS – Interactive Developer Portfolio** — Personal Project
*kyleosullivan.uk | Next.js, React, TypeScript, Tailwind CSS, WebGL* — *Nov 2025*

- **Built macOS-style portfolio** with 20+ custom React components, custom window management system (drag, resize, z-index layering), and WebGL shader effects (GLSL scanlines, chromatic aberration)
- **Integrated AI chatbot** with Google Gemini API and multi-turn context management; Firebase Firestore for chat persistence and Analytics for real-time visitor tracking via custom admin dashboard

## EDUCATION

**MSc Computer Science (75.5% current average)** — University of Bath
*MyWorld Scholar (£5,000) – 1 of 5 recipients university-wide* — *Sep 2025 – Sep 2026*

- Software Engineering, Machine Learning, Algorithms & Data Structures, Agile, TDD, CI/CD

**BSc Management – First Class Honours** — University of Bath
*#1 in cohort for Business Analytics, Strategy with AI* — *Sep 2021 – Jul 2025*

- **Exchange:** NTU Singapore – HCI, UI/UX design, user research | Yonsei University Seoul – VC & Entrepreneurship

## ADDITIONAL

- **180 Degrees Consulting** (Oliver Wyman Partnership): Strategy consultant in cross-functional team of 5; delivered data-driven recommendations to stakeholders weekly — *Jan – Apr 2024*
- **Guest Lecturer:** Workshop for 18 widening participation students on international exchange and study abroad funding
- **Achievements:** £35,000+ total scholarships | £7,000+ esports winnings
- **Interests:** UI/UX design, clean technology & green fintech, open-source contribution, competitive gaming
